

## Radio Meltdown Imaging Elements™

Don't change that dial! **Radio Meltdown** is the new earth shattering collection of **high definition imaging elements** specifically for broadcast. This collection of **2,500 sound effects on two DVDs** has everything you need to **grab your audience's attention** and keep their attention! Radio Meltdown is organized into **8 primary categories**:

- Loopable Beats
- Beds
- Musical Elements
- Production Elements
- Station IDs
- Stingers
- Voice Overs
- 5.1 Surround Sound Elements

List Price: **\$499 USD / €399 Euro**

All sounds were originally recorded at 24 bit-96k to ensure the highest quality for today's production needs and are delivered as **24 bit-48k broadcast .WAV files**. You also get **MP3 reference files** for each sound. Radio Meltdown is a **Click-n'-Drag™ sound library** - simply open the DVD on your desktop, click on folders and copy them directly to you hard drive.

audio and video **demos** available on [www.blastwavefx.com](http://www.blastwavefx.com)

Radio Meltdown is **designed to enable instant access** to the sounds you need:

**Browse by Category:** All sounds are organized in standardized, descriptively named folders for fast, intuitive browsing.

**Search Embedded Metadata:** All files contains rich embedded metadata for quick, intelligent searching. This metadata is compatible with popular search systems and DAWs such as Pro Tools (Digibase), AVID, Soundminer, NetMix and even iTunes.

Blastwave libraries are essential tools for contemporary high-definition sound design in post production, broadcast, film, game audio and beyond.
