

Spoilers - Movie Trailer Sound Beds

Spoilers is the ultimate high definition collection of commercial beds for the editor that wants to put a powerful kick to their final cut. This collection has 300 stereo movie trailers and compositions with matching 5.1 surround files, plus 200 high impact stereo imaging elements. Recorded at 24 bit-96k and delivered as 24 bit-48k broadcast .WAV files, Spoilers raises the bar in royalty-free commercial beds. And, as with every Blastwave FX sound collection, each file comes as an additional mp3 for easy reference.

With Spoilers, editors can cut their project to high impact edit points in commercial ready trailers and compositions, or mix and design elements, trailers, and compositions to get a truly unique commercial bed. Take your final cut to the next level with heart wrenching, tear welling, and fear inducing sound effects with Spoilers, from Blastwave FX – The New Wave In Sound Effects.

List Price: **\$499 USD**

All sounds were originally recorded at 24 bit-96k to ensure the highest quality for today's production needs and are delivered as **24 bit-48k broadcast .WAV files**. You also get **MP3 reference files** for each sound. Blastwave is a **Click-n'-Drag™ sound library** - simply open the DVD on your desktop, click on folders and copy them directly to you hard drive.

audio and video **demos** available on www.blastwavefx.com

Blastwave products are **designed to enable instant access** to the sounds you need:

Browse by Category: All sounds are organized in descriptively named folders for fast, intuitive browsing.

Search Embedded Metadata: Each broadcast .wav and MP3 file contains rich embedded metadata for quick, intelligent searching. This metadata is compatible with popular search systems and DAWs such as Pro Tools (Digibase), AVID, Soundminer, NetMix and even iTunes.

Blastwave is an essential tool for contemporary high-definition sound design in post production, broadcast, film, game audio and beyond. Order online at www.blastwavefx.com
